Who we are

iTransport is a leader as a multifaceted business in the delivery of customised solutions for marketing based businesses and organisations. We have extensive experience and proven excellence in the area of transport and logistics, customised warehousing and events.

The foundation of our business is built on the values and philosophy of integrity and commitment to service, which has enabled constant growth and success over 10 years of operation.

Built on servicing our clients and providing the very best solutions, iTransport has become a trusted name in specialising a comprehensive package for marketing departments and businesses Australia wide.

iTransport is a professional, reliable and solution based business with your objectives in our sights

What makes us so successful?

- We are committed to service excellence
- Our constant growth in all areas facilitated with passionate and dedicated individuals
- Our clients are our number one priority which can be seen through our diligent response and service
- Our ability to successfully achieve and overcome major challenges
- Continually reinventing and finding new ways to streamline and increase productivity in your business.

Why choose us?

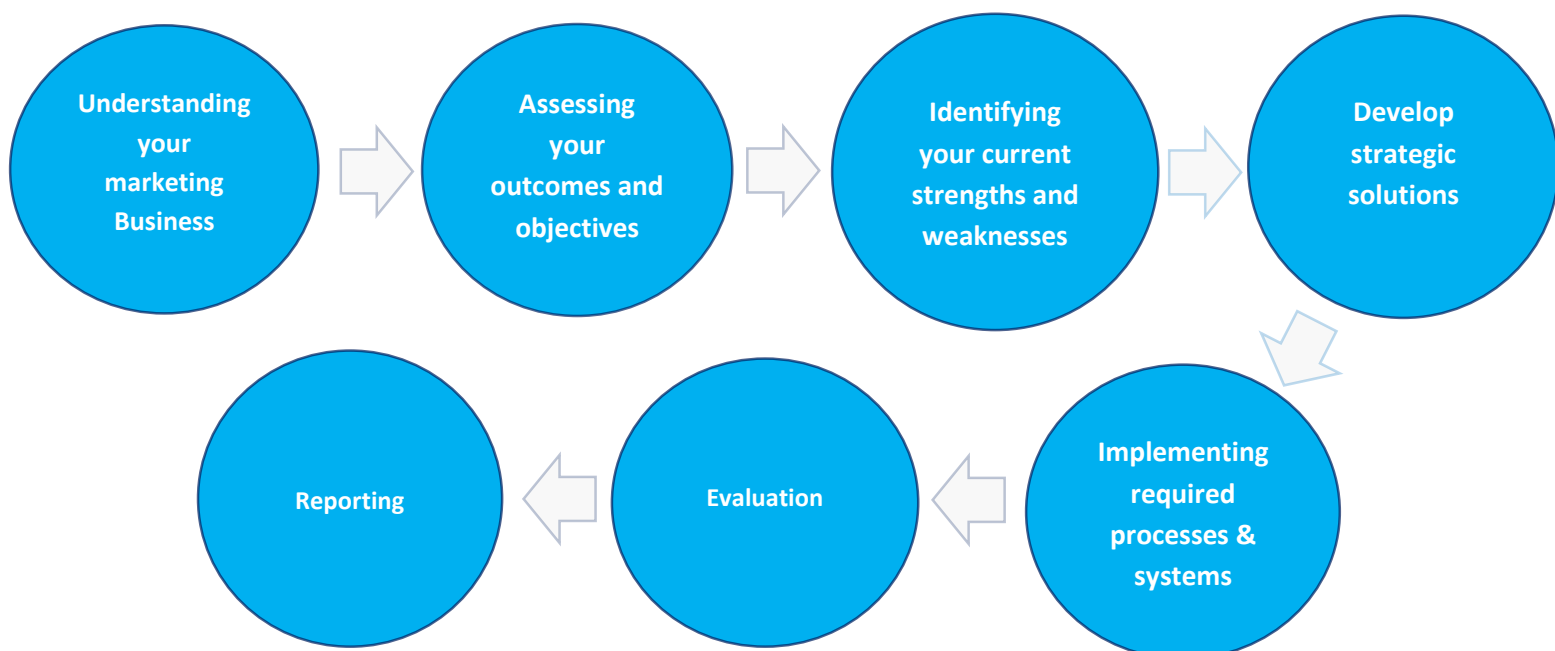

Since iTransport was established in 2004, we have maintained and offered a personalised and effective service to meet the demands and objectives of our clients. One of our core strengths has been in transforming our clients business and requirements into responsive solutions.

We aim to seek a thorough understanding of our clients' business direction and implementing services that enable the desired outcomes to be achieved. We are responsive, diligent and driven in helping improve your brand and image operationally, allowing you to focus on building relationships with your suppliers and customers in mind.

“We provide businesses with effective logistics and marketing event solutions”

iTransport has delivered strong results over a wide range of industries including:

- Gaming and interactive entertainment
- Consumer electronics
- Experiential marketing
- Brand experience
- Printing Solutions
- Computer software
- Supply chain

Transport

Itransport stands to deliver a renowned standard of transport a week, Australia wide. We are able to deliver any specialised service and we will ensure to achieve your desired outcome as intended.

We pride ourselves on our commitment to service and quality assurance we share with all our clients. Our services include taxi trucks, road freight, local to Australia wide freighting, overnight and next flight air express transport. We have a specialised team who are highly qualified within transport and logistics and are able to provide you with assistance with any inquiry you may have and provide you up to date information with your freight.

Warehousing

At iTransport we know the importance and difficulty that people may face with storage of all product and all costs that are affiliated with that. We are able to find the right solution for you that meets your requirements whether it be a small 40sq meter space to a large 2000sq meter warehouse facility. We are able to customise the right solution for you as well as having the best qualified staff to manage your product and get it to where you need at any time.

We have the ability to create an online system that enables you to order your product and see a live update of what is readily available for your next use. Our warehousing solutions are fully equipped with advanced security systems and 24 hours back to base monitoring to ensure your items and product are safe from any unforeseen events.

Events

iTransport has a highly experienced Event team that is able to provide you the best assistance for all inquiries you have relating to events. We have dedicated staff who are able to work with you from the planning stages right through to the end of the event, including the operational and logistics aspects of such events anywhere in Australia.

Our staff will manage your product and set up to your specifications and manage the handling process of your equipment to and from the event seamlessly. We have extensive experience in providing professional event services including technical audio visual and product based set ups, exhibition stand solutions and technology based fit out services.
